

OCEAN SHORES PUBLIC LIBRARY

Overall Policies

Policy: 1.2 Vision/Mission

Adopted Board of Trustees December 2020

In 2018, the Ocean Shores Library Board of Trustees undertook a process to develop a strategic plan to guide library activities 2020-2025. A survey was completed by 431 library patrons to provide input in assessing the needs of the library community. The vision and a mission were adopted as part of the Strategic Plan. The vision looks into what the library would like to become. The mission defines what the library currently does and how it will achieve the vision.

Vision

The Ocean Shores Public Library will be the essential community resource for residents to access information and ideas that strengthen and enrich their lives.

Mission

At the heart of the Ocean Shores community, the library provides access to the world through reading, learning, and connecting.
